

RVALUE GROUP

OPTIMISING BUSINESS SERVICES

An ITS authorized organization tasked with the execution of e-Sourcing Capability Model, highly acclaimed and widely followed by organizations, RvaluE Group has established itself as an esteemed member of the family of globally qualified organizations to provide customized consulting services

Within a short span of 14 years since its inception in 2005, RvaluE Group has emerged as a premier, much sought-after global organization to help companies extract optimum value of their money by realising the full potential of shared services and business process outsourcing.

BANG FOR THE BUCK

RvaluE has shown convincing adroitness and experience in delivering improved business proficiency at lower costs. Through keen focus, foresight, commitment, dedication and hard work, RvaluE group has made a significant mark in diverse fields of business activities, such as finance, administration, marketing, human resources and supply chain in the country as well as in off-shore services.

INNOVATIVE APPROACH TO MANAGEMENT

RvaluE Group's visionary approach focuses on various aspects of enhancement of service function, SSC/BPO expansion, M&A opportunities, modernizing and updating sourcing strategies and structuring models, talent and capability enhancement and innovating delivery models.

RvaluE group has demonstrated exceptional insight and management proficiency by introducing a regular, periodical review of all the consultation services in consultation and interaction with the top management of the clients, with the objective of modifying and redesigning the strategy to transform 'staff' functions into 'line' functions and 'support functions' into 'service functions' and to evaluate performance and contribution so that the clients' investments are duly returned with appreciable enhancements.

INTROSPECTIVE VISION FOR CRITICAL EVALUATION

RvaluE Group's counselling to business

enterprises regarding making a choice between outsourcing and shared services is always precise, scientifically and clinically tested, depending on the structure, nature and extent of the business of the enterprise seeking its services in accordance with their best of interests. The greatest example of the company's precision, authenticity and introspective vision is its logistics of a large network of strategies and processes specially designed for different types of services separately, for instance, structuring models like BOT, BOM, managed services, third-party BPO, self-governing businesses, core-non-core, in-house vs. outsource, process assessment vs. process consolidation plans, work distribution assessment, opportunity identification and many others.

DELIVERING FLAWLESS SERVICE

RvaluE very well realizes its responsibility to provide flawless and efficient services whether through outsourcing or through shared routes. Acknowledging the accountability as a go-between service

provider and the client, RvaluE has drawn a tough and grilling process for selection of third-party service provider. It aims to assist companies in augmenting timelines of project delivery through combined execution and transition as per the requirements of the venture.
