# SANJIWANI HEALTH CENTRE

## EXCEPTIONAL TREATMENT FOR GENERATIONS

Renowned as a leading health centre for the last four generations, Sanjiwani Health Centre has emerged as a one-stop solution for all male and female sexual problems, under the prodigious leadership of Dr S S Jawahar. As a health centre it works on the philosophy of helping people regain the happiness in their sexual lives as it emphasizes on understanding their problems, encouraging them to honestly and openly

discuss their symptoms with specialists at Sanjiwani Health Centre, and providing patients a friendly environment.

Before every treatment, a thorough examination is conducted by experts at Sanjiwani Health Centre to determine if high blood pressure, vascular problems, neurological problems or other common signs are affecting the patients' genital organs. Thus, a careful examination of physical and psychological factors is made to relieve people of severe sexual problems in men, such as erectile dysfunction and premature ejaculation, so they can live a life free of all inhibitions. In addition, experts at Sanjiwani Health Centre offer experienced psychotherapy to help patients overcome their psychological barriers, cope with their sexual trauma and be stronger in their sexuality.

## BEST & SAFE TREATMENTS

Understanding that several additional factors exist, such as drugs, alcohol, smoking, injury on sexual organs, etc. which serve as obstructions to a happy sexual life, various treatments have been

developed by Sanjiwani Health Centre which provide short- and long-term cures for both men and women.

For healing female sexual dysfunctions, experts at Sanjiwani Health Centre provide medicines and hormone treatments to patients, keeping both safety and sensitivity in perspective, after due physical examination and analysis of behavior to ascertain any fear, stress, previous sexual trauma, alcohol consumption, etc.

The best strategies depending upon requirements and conditions of patients are employed for best results, giving due importance to hormone factors such as estrogen and androgen therapy, and sexologists at Sanjiwani Health Centre are extra careful to use only fully safe and natural medicines so the balance in hormones is restored.

sexual and related physical ailments such as lack of sexual desire, infertility, semen infection, stress, depression, fear, etc. but it also treats for sex power through Ayurveda using natural ingredients, which cure safely and do not leave any side-effects. Its Ayurveda treatment for sexual problems is famous because it cures completely without disturbing the balance in the body, thus bringing complete rejuvenation in the body.

**SERVING THE HUMANITY**

With stress increasing to alarming levels in today's competitive professional lives, sedentary lifestyles and unhealthy food, and more & more people resorting to drugs, alcohol, smoking and other ways to relieve their stress, incidents of sexual problems have increased multifold. In such a scenario, Sanjiwani Health Centre has dedicated itself to serve the humanity and cure male & female sexual complications through Ayurveda.

It not only treats patients for common

Completely understanding that sex is an essential part of everyone's life and routine, and can severely affect a person's confidence and every other aspect of life, Sanjiwani Health Centre's treatments for people's sexual problems are life-saving or life-transforming.

Dr S S Jawahar and Sanjiwani Health Centre are committed to eliminate negative energies of patients who approach them, and through Ayurvedic herbs and stimulating healthy and effective medicines help people regain their sexual health.
