

CORE LOGISTIC

INNOVATING ITS WAY TO THE TOP

Continuously striving to live up to the highest industry standards, and trusted for a wide spectrum of cost-efficient services and a simple end to integrated logistics and supply-chain management, Core Logistic Pvt. Ltd. is renowned for its third-party logistics and warehousing services

Keeping the needs of its clients a top priority since day one, Core Logistic Pvt. Ltd. caters to their requirements for the complete outsourcing of inventory and logistics handling services, comprising chiefly of warehousing, inventory management, forward logistics, reverse logistics, and reverse management, and has been providing timely and high-quality services to its clients since its inception.

AN EFFICIENT & PROFESSIONAL APPROACH

Its state-of-the-art warehousing infrastructure and over 400 skilled and ambitious employees are the organization's valuable assets. The company is immensely popular for its services, which are scaled and customized exclusively to meet the clients' needs and continually employs the latest advanced technology. In continuation of its efforts towards exceptional customer service, it has developed its own multi-client, multi-warehouse inventory management system – Optimiser – that allows for a comprehensive system and user-defined enquiry and reporting capabilities.

ROBUST RESOURCES

A leading brand in the Warehousing and Logistics Services, Core Logistic ensures error-free execution of every task and delivers more than what it commits. The exceptional services offered by the firm are facilitated through its massive 8.60 lakh sq. feet of warehousing space, spread across the country in over 30 locations and 42 branches, with a stellar fleet of nearly 200 GPS-enabled vehicles, available 24x7. No wonder it celebrates an impressive clientele including telephone giants Vodafone Limited, Samsung India Electronics, Panasonic India, and Indus Towers.

The organization's readily available warehousing spaces at all major towns and districts in India are equipped with

material handling equipment like Fork Lift, Crane, Electric Stackers, Hydraulic Pallet, 3rd generation Computers, Water Cooler, Air conditioners, CCTVs, HD Racks and Communication facilities including Land Line, Fax, Broadband connection for Internet, etc. to facilitate instant, efficient and reliable inter-office communication. Its offices are also equipped with the state-of-the-art facilities for communication and its team of experienced and professional staff ensures fulfillment of high service standards in line with the requirements of the client. Backing up this frontline is a group of experienced office coordinators and heading them are the managers and zonal heads, who ensure error-free execution of each and every job assigned. The senior management is always available and in full command of the day-to-day operations and are accessible to provide support as and when required.

With its prime focus on Telecommunication Industry, the company caters to the requirements for the outsourcing of complete Inventory

and Logistics Handling Services. As a full-service distribution facility, the firm lays due emphasis on safety and adopts safe and environment-friendly work practices and procedures, delivering its promise of providing high quality, fast, accurate and cost-effective services to all its clients.
