

EMERGING

XENITH ADVANCED FERTILITY CENTRE

HOPE AND HAPPINESS

Infertility is not by choice but by chance. It is not a disease but it can be more traumatic than having a real disease. Xenith Advanced Fertility Centre (Xenith AFC) has consistently created that trust for the last several years that all those couples who desire a baby and are not able to conceive, choose it as their first option as it is undoubtedly the right clinic operating under the guidance of the right doctors in the IVF field.

Though infertility is no more considered a taboo and increasingly people are opting for IVF treatments, 15% of couples in India are infertile with numbers rising every year with stressful living a reality in every household. Thus, understanding patients' emotions and identifying personalized problems, Xenith AFC offers a positive attitude coupled with exact treatment utilizing advanced technology under wise experienced doctors, which is the need of the hour.

Xenith Advanced Fertility Centre is based at Pune, Maharashtra, is one of the finest infertility centres in India, and is run by a team of experienced specialists led by the dynamic Dr Mamta Dighe.

STATE-OF-THE-ART TECHNOLOGY & INDIVIDUAL APPROACH

Believing that we live in times where nothing is impossible, and technology can be used to make anything under the sun possible, Xenith Advanced Fertility Centre has helped uncountable couples complete their families by giving birth to their own bundle of joy. Xenith AFC specializes in consultancy, rendering the latest methods of conceiving and fertility-enhancing services, and in getting best personalized results as early as possible at the most reasonable prices. Its various facilities include semen freezing, embryo donation programme, endometriosis treatments, surgical sperm retrieval, and

surrogacy, etc.

At Xenith AFC patients taking the treatment are specifically examined in detail, given individual attention, are accurately advised keeping everything transparent, and have committed doctors that leave no stone unturned to make them proud parents. Attention to details, a caring staff, advanced technology, sparkling cleanliness – in short a holistic approach with unbound faith – have helped the clinic grow leaps and bounds making it the best emerging IVF centre in Maharashtra.

TRUE TO HER NAME

Dr Mamta Dighe is not only a charming personality but behind those soft looks is a woman of grit who excels in her field and transmits her experience of more than two decades to her patients fulfilling their lives with ultimate contentment. Apart from being an MBBS and MD in Obstetrics and Gynecology and a Specialist in Infertility and IVF, she is a caring person who understands the anxiety a couple goes through while trying to conceive. Not only entrepreneurially leading a team of doctors as one of the first Board-certified specialists in India in the field of assisted reproduction, she has also shown supreme compassion and commitment to give positive results to hopeful couples.

Creating a unique vision of personalized solutions, support workshops for patients (where a counsellor tries to relieve the stress of the patients), transparent strategy with several appropriate alternatives, superlative IVF lab with modular clean room and class 10,000 environment in addition to an IVF OT with Air Handling Unit (AHU) with High Efficiency Particulate Air (HEPA) filters, Xenith AFC has become one of the best in success and satisfaction.
