

MULTICOLOR STEELS

STEELY AND STURDY

Multicolor Steels Private Limited is a highly trusted name in the country and a leading manufacturer and supplier in the steel industry. The company in the past 20 years has established a strong client base with its dedicated services extended towards the clients. The name has become synonymous with the industry that caters to the needs of pre-fabricated buildings and steel structures.

Headquartered in New Delhi and established in 1994, the company is sole-heartedly dedicated to providing and constructing metal building systems, metal roofing, and wall cladding, pre-fabricated buildings, steel deck floor systems, portable buildings, and insulated sandwich panels. In 2002, Multicolor Steels initiated its own manufacturing and production unit, at IMT Manesar; thereby offering an extensive

variety of roofing sheets and several other metal building components.

BEST QUALITY AND SAFETY ASSURED

The company takes pride in understanding and complying with the needs of its customers and buyers, to provide Next Generation Metal Building and its components, which are sustainable, cost effective and energy efficient. The team of highly qualified and skilled professional engineers at Multicolor Steels, work tirelessly to cater to the erratic needs of the customers by providing comprehensive solutions for designs and manufactured products. The workforce at the company also aspires to create buildings that are strong, durable, safe, secure, as well as beautifully aesthetic. The company has over the years adopted the highest standards of quality along with unbeatable speed,

safety and the service of after-sale that not many companies offer in the current market. Multicolor Steels aims at establishing a long-term relationship with their clientele and this is conspicuously successful since the clientele trusts the company to repeatedly present it with further business orders.

The widest range of specialized roofing systems

manufactured by Multicolor Steels is used all over India by companies like Honda, Maruti, Suzuki, Tata Steel, Tata Motors, 8 Airports, Metros, etc. It has also entered 'Limca Book of Records 2016' as the first company in Asia for fabricating and installing 164.2 m single-length jointless Standing Seam Roofing System at Vadodara Airport.
