

## AVANSE FINANCIAL SERVICES

ADVANCING THE FUTURE OF YOUNG MINDS

*Well understanding that though education is perhaps one of the most important things in life, offering people the power to think, to apply logic, and to make rational and right decisions, but it's sadly out of reach for a majority of the population, Avanse Financial Services Limited has emerged as their saviour*

**A** new age educational finance company is what Avanse call themselves. "Avanse" is a French word that means advance, and that is exactly what they aim at doing.

### MAKING EDUCATION EASY

Specializing in the niche space of education, Avanse helps many students fulfil their educational dreams, with educational loans at the best of the best conditions. Dewan Housing Finance Corporation Limited (DHFL), the second-largest private housing company in India, is the mother organization of Avanse Financial Services, and the influence is clearly visible. Avanse provides financial assistance through Avanse standalone offices and also through the DHFL network offices

What DHFL has done to the real estate sector, Avanse is doing to the educational finance sector. Making it incredibly easy for students to pursue their dreams, Avanse finances the educational dreams of many students hoping to make it to their university of choice. Through the

DHFL network offices and standalone Avanse offices, they provide educational assistance to the aforementioned students. Locations such as the USA, UK and Canada are all covered by their services.

### THEIR VISIONS AND VALUES

As a corporate organization, Avanse has a very specific vision of what it aims to achieve with its functions, as it wants to establish itself as the best-in-class Customer-centric Diversified NBFC operating across the domains of Consumer, MSME and Commercial Businesses with Leadership Position in Education Loans.

They understand that having merely a desire to do something or having the potential to do something is not enough to get things done. In today's world, financing plays a role like no other. Therefore, a student, in order to achieve his/her dreams, must be assisted with competitive matched financing to open up a whole host of future prospects.

With an intention to create new curves of evolution rather than to compete in the

existing market, Avanse aims to provide hassle-free and complete education finance, also aiming at making the entire process as smooth as possible for students, with flexible repayment options and customized solutions as per the preferences of the students. Not only this, they also provide mentorship services to students in need of guidance on the subject of higher education.

An interesting fact to note is that the International Finance Corporation, an arm of the World Bank, holds a 20% stake in Avanse Financial Services. Having the backing of such an influential world body has proven to be a matter of pride and prestige for the organization.

Aspiring without boundaries is what Avanse stands for. Helping students dream, unshackled by their financial conditions, is what they plan on doing. Every Indian student has the right to access the best possible education. Standing up for them is Avanse Financial Services, helping them fulfil their dreams of studying wherever they want. Trust, faith and integrity are what they live their life by.
