

PENNA CEMENT

PROVIDING FUTURISTIC AVENUES FOR COMMINGLING STRUCTURES

Rising incredibly as one of the largest privately undertaken companies in the field of cement production, Penna Cement has spread its wings in the entire western and southern India working with organised real estate sector, state governments and international corporate infrastructure developers

With a vision to create an unceasing esteem and growth for all collaborators and to achieve the objective of building a “Bigger, Better and Stronger” unit, Penna Cement has established itself as an avant-garde enterprise by equipping all its plants with cutting-edge technology to manufacture world-class cement.

STRUCTURED ON A SOLID FOOTING

The mission of the company is to contrive ingenious and vying product with an eye on maintaining a healthy environment for all involved.

Penna Cement has always nurtured values, focusing not only on achieving perfection in product development and customer satisfaction but also aspiring to take care of the needs of its employees and the society as a whole. The company leadership has the requisite foresight to comprehend the fact that the road to long-term success is built equally on establishing robust relations with the customers and creating healthy and profitable bonds with all its stakeholders. This has led the company to establish healthy and cordial relations with all those involved including the society and the environment.

A SAGA OF SUSTAINABLE SUCCESS JOURNEY

The company achieved vital, mentionable milestones with the installation and commissioning of its first production/manufacturing line of MTPA at Tadipatri followed by the first production plant at Talaricheruvu within 3 years of the installation of its first production line which they fondly called their mother plant. In keeping with its vision to create sustainable value, growth and products of exceptional quality, Penna Cement has undertaken the task of producing Portland Cement Concrete (PCC), which has been acknowledged blended cement of exclusively special quality according to

the specification norms of Bureau of Indian Standards. The success story of unbridled expansion of new plants, expansion of capacity, commissioning of grinding units, packing terminal, commercial operations, etc. has continued till-date unabated.

GIVING BACK TO THE SOCIETY

PennaCement, along with working towards tenable growth and financial stability has never shied away from its responsibility towards the environment and the society as a whole. The company, as a part of its corporate social responsibility, has worked on an assortment of projects such as education, gender equality, health, women empowerment, poverty and malnutrition.

TAKING CARE OF ITS SURROUNDINGS AND ENVIRONMENT

In its pursuit to preserve environment, Penna Cement follows a righteous and ethical approach towards its business, harmonising its operations and morals so as to set an example for the society. To achieve this harmony, the company

has been using one of the most advanced waste heat recovery technology to reduce carbon dioxide emissions. The company has also set up sewage treatment plants at all its manufacturing units so as to maintain a clean environment along with furtherance of its business.
