# TECH MAHINDRA

A leading consulting, business engineering and integration company and a specialist in digital transformation for the telecommunications industry globally, Tech Mahindra has not only provided cutting-edge technological solutions to connect the world, but has also successfully bridged the gaps between "ideas and reality", "vision and action" and "efficiency and dreams" since its inception

**T**ech Mahindra has been at the forefront of driving the transformation that is happening in the global marketplace, led by digital technologies, whether it's Cloud, Internet of Things, Cognitive Computing, Artificial Intelligence or Machine Learning. As a major solution provider to the Communications industry, Tech Mahindra has immensely contributed to connecting the world and connecting the businesses with each other thus contributing to this transformation across sectors such as Healthcare, Manufacturing, Infrastructure, Financial Services, Energy & Utility or Telecommunications. With each passing year, the company has added to its strength building up newer capabilities, acquiring newer technology skills and thus helping global corporates in enhancing their efficiencies.

As a leading technology services provider, the company has not only successfully leveraged the global delivery model, in the process it has created huge employment opportunities in India and also in countries where it operates. The mission of the company is very simple – working towards making an impact beyond just the commercial objectives. As a commitment towards using technology to enhance the quality of governance, Tech Mahindra is helping the governments of the land with its expertise and technology solutions. Along with its subsidiaries,

Tech Mahindra has built technology solutions and platforms to better skill the common people, provide access to jobs and make digital payment easier among others. Following the path laid by its leaders including Vice Chairman Mr. Vineet Nayyar and CEO & MD Mr. C P Gurnani, the company is determined to bring a revolution in the IT industry through its world-class IT services and solutions.

## THE TOWERING NAME

Beginning its success story in the year 1986, Tech Mahindra was incepted as Mahindra British Telecom (MBT), which was created as a joint venture of Mahindra & Mahindra and British Telecommunications. From establishing MBT International, its first overseas subsidiary in 1993 to incorporating its offices in China in 2006, Tech Mahindra has seen an exponential growth in its success chart. Today, the company is expanding its reach through its international offices spread across regions such as Germany, Singapore, the UK, Latin America, etc.

This fifth-largest IT services provider of India has made many acquisitions and joint ventures on its way to reaching the present scale. In 2005, the company acquired Axes Technologies (India) Private

Limited along with its subsidiaries in the US and Singapore. Subsequently, the acquisition of Satyam Computer Services helped it achieve the much desired scale and reach. In these years, companies such as Citisoft, Knowledge Dynamics, Lightbridge Communications Corporation, Comviva Technologies Limited, Hutchison Global Services, and iPolicy Networks Private Ltd, etc. also came under the possession of Tech Mahindra. Bit-by-bit, the company has consolidated its empire with strong ideas and visionary strategies. It is one of the few Indian IT services players that have successfully balanced its portfolio in terms of exposure to geographies and service lines over a period of time.

#### THE VALUABLE STEPS

Believing in empowering the society and nation at large, Tech Mahindra has taken various social initiatives as well. In 2007, it established Tech Mahindra Foundation to help the underprivileged section of the society in the areas of education, vocational training, and disability. Keeping true to its vision of proliferating Wellness before Business, the company also became a part of International Day of Yoga supported by Ministry of Ayush in 2015 as the official technology partner. In September this year, the Government of Jharkhand collaborated with Tech Mahindra to promote digital literacy in the state and improve the IT skills for creating more job opportunities as well.
