

POWERFUL

SERVICES 

In 1978, Mr. Mahimananda Mishra started Orissa Stevedores with just a handful of people. In the last four decades, the company has emerged as one of the strongest and most trustworthy names in marine services around the world. From dry bulk and containerised to dimensional, breakbulk, and project cargo, it has built expertise to handle all types of cargo. Slowly but surely, the organisation has made a strong presence at all the major and minor east coast parts of India.

The parent company of Orissa Stevedores, the OSL Group has also built a name for itself in the sectors of hospitality, automobile dealership, FMCG sales, education, and luxury merchandise retail. In its long servicing history, the Group has been handling cargo and providing end-to-end logistic solutions to major corporate houses of India and abroad, including IFFCO, Steel Authority of India Ltd., TATA Steel Limited, Reliance, JSW, IMFA, Vedanta, NALCO, Jindal Stainless and Arcelor Mittal Nippon Steel, to name a few.

TAKING FORWARD THE LEGACY

Advancing the legacy of the parent company, Orissa Stevedores has today become the preferred choice of some of the major companies when it comes to cargo handling services. At present, the organisation can handle more than 50 million tonnes of cargo in different sectors. Its core functional areas include stevedoring, project cargo handling, c&f activities, custom house agency and steamer agency, among others. In addition, the company has made inroads into the sectors of mining, transportation, hospitality, dredging, and warehousing.

One of the core principles at Orissa Stevedores is creating value for all stakeholders and society. This is the agenda that drives the organisation. Continuous innovation and operational excellence are the other two pillars on which rests the success of the company.

AWARDS AND ACCOLADES

It is this dedication and commitment that has led Orissa Stevedores to become one of the most recognised names in the industry. It has been chosen as the "Best Stevedores in the East" by the Great Eastern. Before that OSL received the "Best Stevedores" Award at the Smart

Summit. Recently, Chennai Port Trust awarded the firm the "Best Performer at Chennai Port" title. More recently, Orissa Stevedores bagged the title of "Best Stevedores of the Year" from the Paradip Port Authority for handling the highest cargo. The 'East Coast Maritime Forum' has repeatedly recognized it as the 'Best Logistics Company of the Year' for its successful diversification across multiple logistics sectors. Also, Paradip Port Trust had recognised it for handling the maximum quantity of cargo at the port.

**GIVING BACK TO SOCIETY**

These endeavours range from organising vaccination drives to awarding scholarships to deserving students. The company's core principle lies in fostering a fair and inclusive community for everyone. Even during the COVID-19 pandemic, Orissa Stevedores emerged as one of the biggest helping hands for the community around them. The company donated thousands of PPE kits, gave away medicines and essentials to the marginalised, and the company stood like a rock by all its employees.

It stands as a remarkable exemplar of growth and excellence in Eastern India. Since 1978, the company has evolved into a stalwart across the sectors of shipping, mining, logistics, and exports. In 2021, it conceptualised Odisha's first-ever riverine jetty. The company was given the responsibility to develop and operate the jetty in 2022. It now plans to develop and expand the jetty's facilities to accommodate larger vessels to directly cater to neighbouring countries.

ORISSA STEVEDORES
