TCIEXPRESS
LEADER IN EXPRESS

TCI Express is an express cargo distribution company that was established in 1996 as one of the foremost divisions of the Transport Corporation of India (TCI), India's most admired logistics company. TCI was incorporated way back in 1958 and over the decades, it has become one of the leading integrated supply chain and logistics solutions providers, and a pioneer in the sphere of cargo transportation in India. The much younger vertical – TCI Express has leveraged the extensive infrastructure of TCI and continues to build on the legacy.

REACHING EVERY NOOK AND CORNER

TCI Express has been an independently listed company with the stock exchanges of India. With a clear focus on express cargo distribution, TCI Express has the greatest emphasis on B2B express delivery solutions. The brand specialises in offering time-definite solutions. It is also the only express cargo company in India having its own set up across India reinforced with a team of over 3,500 professionals and more than 50,000 pick-up and 60,000 delivery locations.

In spite of the widespread downturn affecting the industry, TCI Express has demonstrated remarkable consistency and sustained a steady pattern of growth. It can easily be called the market leader in express distribution in India.

The organisation has been growing fast and adding more local offices. It currently has over 950 offices covering more than 60,000 locations. It provides coverage in more than 712 districts in India. The firm offers various services such as surface, air travel within India and internationally, e-commerce, rail, cold chain for pharmaceuticals, person-to-person, and reverse express services. It also has special expertise for clients in consumer electronics, retail, apparel and lifestyle, automobile, pharmaceuticals, engineering, e-commerce, energy/power, and telecommunications. With a value-driven focus on customer satisfaction, TCI Express places equal focus on all stakeholders – customers, vendors, employees, shareholders, and more in the express delivery industry.

SETTING THE BENCHMARK

The company is also one of the leaders in setting industry standards. Recently, its "GIGA Sorting Centre" in Tajnagar,

Gurugram, has been awarded the prestigious LEED Gold Certification by the USGBC, making it the first B2B express logistics company in India and South Asia to receive such an esteemed award.

The sorting centre has earned the 'Gold' rating under the LEEDv4 BD+C Warehouses and Distribution Centres rating system, showcasing TCI Express' commitment to sustainability and environmental responsibility. In the near future, TCI Express is also looking at expanding and enhancing its infrastructure, fleet, and operational

capabilities to meet customer demand and stay attuned to the developments in the sector.

DRIVING INDUSTRY-WIDE GROWTH

Brands like TCI Express are more than just market players; they are catalysts for industry-wide advancement. Through their commitment to growth, innovation, collaboration, and excellence, they take a whole sector ahead and set new benchmarks, which often become best practices. They push the boundaries and lead by example, ultimately contributing to the overall progress and transformation of the industry.

TCI Express' remarkable journey from being a division of TCI to becoming a leader in the express distribution logistics sector demonstrates its commitment to excellence, technological advancement, and a customer-centric approach. Its consistent growth and unmatched reputation highlight its role in shaping the logistics landscape in India and serving as an inspiration to others in the industry.

TCI EXPRESS

CONSISTENTLY STRIVING FOR EXCELLENCE

TCI Express, one of the top express distribution logistics companies in India, was started as one of the divisions of the Transport Corporation of India (TCI). TCI Express' growth over the years is a testament to its relentless pursuit of excellence, innovation, and customer satisfaction
