

LINDEN MONTESSORI PLAY SCHOOL

SHAPING THE FUTURE

Linden Montessori Play School, Bangalore, aids young children's development by providing a dynamic learning environment. Under the direction of the Founder and Director Ms. Stuti Mehrotra, it makes every effort to promote their innate curiosity and joy of learning, and aims at inculcating a sense of social responsibility

Since its opening in 2014, Linden Montessori Play School has served as both a preschool and a daycare centre. Due to its emphasis on experiential learning, group play, and self-directed activities, Montessori education is regarded as one of the best teaching methods for young students. Ms. Stuti Mehrotra established Linden Montessori Play School as an educational space that facilitates learning by doing for little ones. The school is expanding its building, integrating more cutting-edge programs, and seeking to perform better as an institution to become a key player in the preschool sector.

THE STUDENT-CENTRIC APPROACH

As the name implies, Linden Montessori Play School adheres to the Montessori education philosophy, which focuses on children in an individual capacity and helps them realise their innate capabilities. Every child here learns and develops through experience before progressively

transitioning to writing alphabets and numbers, based on their readiness level. This type of experiential learning, essential to the Montessori Philosophy, is more critical now than ever because kids are exposed to gadgets early and need to be given more experiential learning for greater concentration and attention. The goal of the playschool is to encourage learning, desire, and exploration and assist the young children in becoming more imaginative, organised, focused, and responsible adults who will work to improve the world.

CHILD-SAFE INFRASTRUCTURE

Linden Montessori Play School's building is airy and welcoming. A great place for learning, it has a breathtaking outdoor space that promotes children's unstructured play and social connections. Separate areas have been designated for activities such as dining, reading, and audio-visual learning. This set-up enables kids to play and move around, which is essential for stimulating their brains and

learning.

Every setting in the school has been planned with child-sized furnishings and educational resources that are easily accessible by them. The classrooms are large, bright, and open. They are expertly designed, with different learning materials segregated into several precisely ordered sections. These classrooms accommodate a mixed-age group of students, fostering independence, social interaction, and respect for one another.

DISTINCTIVE LEARNING MATERIALS

Using hands-on learning materials is one of the distinguishing features of Montessori Education. These materials are self-correcting, allowing children to learn by trial and error. They are also intended to be utilised in a precise order so that young ones can gradually increase their knowledge and skills.

The school faculty is compassionate, sincere, and trained in the Montessori teaching method. They support and promote a child's natural desire to learn. They also plan Zero-Waste Annual Events where children participate in practical waste management. Many parents appreciate these events.

Both the preschool and the daycare emphasise extracurricular activities such as yoga, gardening, cooking, arts and crafts, and role-plays.

HAPPY TO SERVE

Linden Montessori Playschool was formed to provide an interactive, stimulating, and engaging environment for children to help them realise their immense potential. The school's goal is not to fill a child's brain with facts, but to foster their natural drive to gain knowledge and develop curiosity for learning.

The Linden Montessori Play School is proud to be a part of a child's educational journey and believes that a Montessori education may help a child develop the skills one needs to succeed in life.
