**CLIMBING THE SUCCESS LADDER**

Studio XP embarked on its journey with an eight-person team and has since evolved into a robust professional workforce of 65 people, operating from Delhi NCR and strategically located offices in Jaipur, Bengaluru, Kolkata, Hyderabad, Pune, Mumbai and Dubai. Its recruitment philosophy centres on attracting proactive, dedicated, honest, and forward-thinking architects and project managers imbued with enthusiasm for the diverse range of projects the team undertakes. It is dedicated to preserving design integrity and unwavering quality, ensuring that each project surpasses client expectations.

**TALENTED WORKFORCE**

The company has paired its skilled team with its incredibly dedicated workforce

and used its unique resources to strive for perfection. With expertise in architecture and interior design, project and construction management for corporate buildings, commercial constructions, international educational institutions, hospitality, healthcare, international centers, industrial and retail projects, the team leaves no stone unturned in its pursuit of perfection in each assignment.

**WIDE ARRAY OF SERVICES**

Studio XP provides best-in-class services for complete development management

including architecture, interior design, construction management, and adds real value to developers, funds, financial institutions and corporate occupiers to help them make well-informed quality real estate decisions. The services range from space organisation and project management to cost control, contract management, and visual branding to communicate a company's mission and vision. The services are offered according to industry standards to deliver projects with innovative, sustainable, and timeless designs and quality within approved budgets and specified timeframes.

**ALL-ENCOMPASSING SERVICES**

Studio XP's objective is to provide all-encompassing services from project ideation through execution and a smooth transition to the end users, acting as a one-stop solution provider for corporate and commercial projects to fulfil customer demands based on their business functions and continuous evolutions to cater to the dynamic industry model.
